

# The portfolio consists of companies working towards the UN's Sustainable Development Goals

The following are the UN Sustainable Development Goals (SDGs) and key company outputs for our portfolio companies. For every potential investment, we review how that company maps to the ecosystem of UN SDGs. Once we invest in a company, we ask that company to track specific impact-related outputs tied to those UN SDGs.

## 14 LIFE BELOW WATER

Note: (1) Chart depicts Rise investments over \$5 million. If including all Rise portfolio companies, WIST (Drinkwell) would fall under Clean Water and Sanitation, and Sling Therapeutics would fall under Good Health and Well-being. (2) Many Rise companies are working on multiple SDGs, as we have occasionally found them to be difficult to differentiate; we have highlighted only the SDGs that align most closely with the primary mission and impact pathways of companies
